

DIGITAL STORYTELLING PRODUCTION GUIDE

Step 1: Choose your topic _____

Step 2: Write your script along with pictures of your choice, do storyboarding using the table below

Step 3: Find your pictures and sound files, edit them as you like in PhotoStory

Step 4: Record your voice using a microphone, and narrate your story according to your storyboard

Step 5: Finalize and save your movie in a format that best suits your needs. Do not forget to save your project in PhotoStory format to be able to edit it later.

SCENES/PHOTOS	SCRIPT	MUSIC
<p>Scene 1: INTRODUCTION</p> <p>Picture 1: AC unit controller Picture 2: Blue Planet</p>	<p>Title of the story: The price of Climate Change*** (The script is taken from Time Magazine) Opening Question: What have we done to our planet?</p> <p>Global Warming has already touched all seven continents as icebergs melt, oceans rise and nature reacts. While change can't be blamed for any one heat wave or flood, scientist predicts that a hotter planet will suffer more incidents of extreme weather.</p>	<p>Dramatic Music: Wow_undercity.mp3, Kitaro Silk Road</p>
<p>Scene 2: HOTTER TIMES</p> <p>Picture 3: Penguins Picture 4: Mount Kilimanjaro</p>	<p>Antarctica, home to these penguins, is heating up. The annual melt season has increased up tp three weeks in 20 years. Mount Kilimanjaro has lost 75% of its ice cap.</p>	<p>Kitaro Silk Road</p>
<p>Scene 3: WILD WEATHER</p> <p>Picture 5: Heavy Rain Picture 6: Forest Fires</p>	<p>Heavy rains in England and Wales made last fall Britain's wettest three-month period on record. Fires due to dry conditions and record-breaking heat consumed 20% of Samos Island, Greece, last year.</p>	<p>Sound Clips: Thunder, Fire</p>
